And more ...

UcamX v2022.06 comes with a host of [fixes](#) for issues you have cared to report.

Please keep on doing so. Your feedback is highly appreciated.

Thank you!

The major open issues are listed in the file [Open_Issues_yymmdd.txt](#) in the version folder of the FTP sites. This is important information. Please monitor these issues.

Install v2022.06

The installer can be downloaded from the Ucamco FTP download server.

We recommend that you use an FTP client to do so, as most browser no longer support FTP.

We recommend installing this update at your earliest convenience.

For any further questions you may have, please contact our local business partner or the Ucamco helpdesk.

We thank you for choosing a Ucamco product.
